

Participate in the 10th Annual **SOUTHEAST FLORIDA REEF CLEANUP!**

Download
the Clean
Swell app

This year, the Southeast Florida Coral Reef Initiative is partnering with the Ocean Conservancy to encourage community members to conduct do-it-yourself cleanups during the month of August using the Clean Swell app.

To participate in the 10th Annual Southeast Florida Reef Cleanup, simply head out to your favorite beach or waterway during August and use the app to record each item of debris you collect.

When you open the app within the boundaries of Martin, Broward, Palm Beach and Miami-Dade counties, it will automatically populate with the Southeast Florida Reef Cleanup group information. Make sure you don't change the group name, as this will help us count your data toward this year's total amount of collected debris.

DO-IT-YOURSELF CLEANUP TIPS

- **SAFETY FIRST!** Wear gloves and do not collect anything that is too large, heavy, deep or sharp that could jeopardize your safety.
- After finishing your cleanup, carefully remove your gloves and thoroughly wash your hands with soap and water.
- Dispose of collected items appropriately in well-sealed bags and do not leave them in overflowing trash receptacles.
