

DEP's Southeast District Second Annual Superior Excellence Distinction Award Program

In support of the Florida Department of Environmental Protection's (DEP) vision of creating strong community partnerships, safeguarding Florida's natural resources and enhancing its ecosystems, DEP's Southeast District will present the second annual Superior Excellence Distinction (S.E.D) Award at its next Open House in September 2018. This award will recognize an organization's exceptional achievements in environmental stewardship.

Any business, industry, trade association, professional organization, local government or non-profit organization in the Southeast District of Florida can be recognized for their commitment to the environment. The Southeast District encompasses seven counties (Miami-Dade, Broward, Palm Beach, Martin, St. Lucie, Okeechobee and Indian River).

"Last year's recipient, Triumph Aerospace Structures, demonstrated significant and measurable achievements that provide a direct benefit to the environment," said Jennifer Smith, director of DEP's Southeast District. I look forward to this year's award ceremony at our annual Open House where we will once again present an award to a local organization for their remarkable accomplishments."

The objective of environmental stewardship is to reduce the impact on the environment beyond measures required by permit or rule, ensuring responsible use and protection of the natural environment through conservation and sustainable practices.
