Did you know? With the state providing \$350 million each year, local communities can address water quality needs. Encourage your local government to be involved. **#WeProtectFLWater**

Did you know? With the state providing \$350 million each year, local communities are able to address water protection concerns like stormwater and wastewater treatment, septic tank upgrades, septic to sewer conversions and rural and urban fertilizer reductions. Encourage your local government to be involved. **#WeProtectFLWater**

Post 2:

Support the state and local ask to Congress to continue funding projects that improve and maintain Florida's water, like the EAA Reservoir. **#WeProtectFLWater**

Support the state and local ask to Congress to continue funding projects that improve and maintain Florida's water, like the EAA Reservoir. **#WeProtectFLWater**

Post 3:

Your support has helped Florida commit to \$100 million that has expedited the completion of the critical repairs to the Herbert Hoover Dike. **#WeProtectFLWater**

Because of the community's partnership with the state, Florida's \$100 million commitment has expedited the completion of the critical repairs to the Herbert Hoover Dike. **#WeProtectFLWater**

Post 4:

Did you know? Florida communities are working closely with the state to protect Florida's water by identifying long-term restoration plans. **#WeProtectFLWater**

Did you know? Florida communities are working closely with the state to protect Florida's water by identifying long-term restoration plans. **#WeProtectFLWater**

Post 5:

The Water Resources Development Act (WRDA), which includes the critical authorization of the EAA Reservoir, is currently awaiting approval from Congress. Bring relief to communities impacted by algal blooms – urge Congress to vote and approve WRDA today! **#WeProtectFLWater**
