

NPDES Stormwater Multi Sector Generic Permit Guidance

Sector AB: Manufacturers of Transportation Equipment Industrial or Commercial Machinery

This document was published as a guide only and it does not include all the applicable legal requirements. Facility Operators are responsible for obtaining complete information about applicable regulations. The Department does not relieve any person from any requirements of federal regulations or Florida law though this guide. As this document is only a guide, facilities may find that some aspects contained in this publication may not be applicable in their case.

Sector AB -- Manufacturers of Transportation Equipment Industrial or Commercial Machinery of the Multi-Sector Generic Permit (MSGP) gives special conditions for the storm water discharges associated with Industrial Activity from facilities which manufacture transportation equipment, industrial or commercial machinery.

Regulated Activities Standard Industrial Classification (SIC)

- **Engines and Turbines** (3511, 3519)
- **Farm/Garden Machinery & Equipment** (3523, 3524)
- **Construction, Mining, and Materials Handling Machinery & Equipment** (3531, 3532, 3533, 3534, 3535, 3536, 3537)
- **Metalworking Machinery and Equipment** (3541, 3542, 3543, 3544, 3545, 3546, 3547, 3548, 3549)
- **Special Industry Machinery and Equipment** (3552, 3553, 3554, 3555, 3556, 3559)
- **General Industry Machinery and Equipment** (3561, 3562, 3563, 3564, 3565, 3566, 3567, 3568, 3569)
- **Refrigeration and Service Industry Machinery** (3581, 3582, 3585, 3586, 3589).
- **Miscellaneous Industry and Commercial Machinery and Equipment** (3592, 3593, 3594, 3596, 3599).
- **Motor Vehicles and Motor Vehicle Equipment** (3711, 3713, 3714, 3715, 3716).
- **Aircraft and Parts** (3721, 3724, 3728).
- **Motorcycles, Bicycles, and Parts** (3751).
- **Guided Missiles and Space Vehicles and Parts** (3761, 3764, 3769).
- **Miscellaneous Transportation Equipment** (3792, 3795, 3799).

Recommended BMPs (not limited to):

Stormwater treatment BMPs are intended to prevent or minimize the contamination of runoff, or treat runoff contaminated with pollutants.

- Confine and perform loading/unloading activities indoors or in a covered designated area.
- Berm, curb, or dike loading/unloading, and storage areas.
- Divert stormwater around storage areas with vegetated swales, and/or berms.
- Store waste in enclosed and/or covered areas and in covered, leak proof containers (e.g., dumpsters, drums).
- Confine storage to areas outside of drainage pathways and away from surface waters
- Do all cleaning at a centralized station, and clean up leaks, drips, and other spills without using large amounts of water or without using liquid cleaners whenever possible.
- Perform all cleaning operations indoors or under covering when possible.
- Ensure hazardous and solid waste disposal practices are performed in accordance with applicable federal, state, and local requirements.
- Train employees on proper loading/unloading techniques, and on proper waste control and disposal procedures.

Industrial facilities which have the potential to discharge stormwater to surface waters of the State or into a municipal separate storm sewer system (MS4) and fall under any one of the 11 categories of industrial activities identified in 40 CFR 122.26(b)(14), may require coverage under the Multi-Sector Generic Permit. To submit a Notice of Intent (NOI) for coverage, request a permit determination or to obtain a copy of [the MSGP Sector AB Specific Language](#) in its entirety, please contact the NPDES Stormwater Notices Center at: 866-336-6312 (toll-free) or by email at NPDES-stormwater@floridadep.gov
