

July 23, 2025 10 a.m.–12p.m.
ERP Quarterly Workshop Series:
NAVIGATING THE SHORELINE STABILIZATION
PERMITTING PROCESS

Shoreline stabilization structures are built to protect a shoreline from erosion and require an ERP authorization. This workshop will highlight the various shoreline stabilization structures, ranging from bulkheads to riprap, and the appropriate application materials to be submitted. This workshop is intended to assist an applicant in submitting a complete application or notice, which can significantly reduce permit processing time.

| Topic and Speaker | Start Time |
|---|-------------------|
| Welcome and Introductions Katie Craver, External Affairs Director | 10:00 a.m. |
