PWS ID #: 3600008 PWS NAME: SOUTH SUMTER UTILITY (CONSEC)

POPULATION: 370

#### 2019 DRINKING WATER MONITORING REQUIREMENTS

MONITORING & REPORTS	DUE	COMMENTS
Microbiological ("Bacte")	Monthly	Disinfectant residuals must be reported individually and averaged on bacte reports. Compliance for maximum disinfectant residual level is based on a running annual average.
Monthly Operation Reports (MORs)	Monthly	Include information about maintenance and/or abnormal occurrences & CT cales. if required. Until the population hits 3,300 will only need to visit 2 days/wk with no more than 5 days between visits.
Nitrate and Nitrite		Sample at POE* every year.
Primary Inorganics		Sample at POE every 3 years.
Secondaries		Sample at POE every 3 years.
Radiologicals (Gross Alpha & Radium 228)		Sample at POE every 3 years.
Volatile Organic Contaminants (VOCs)		Sample at POE every 3 years.
Synthetic Organic Contaminants (SOCs)		Sample at POE every 3 years.
Stage 2 Disinfection Byproducts (DBPs)  Total Trihalomethanes & Haloacetic Acids (5)	August 2019	Sample in accordance with approved plan. 2 locations.
Asbestos	2021	Asbestos-free certification or results due every 9 years. Use Asbestos Form 62-555.900(10), F.A.C.
Lead and Copper (Tap Sampling)	2 consecutive biannual samples	Test 10 samples in accordance with the most recently approved sampling plan.
Consumer Confidence Report (CCR) & CCR Certification of Delivery	CCR July 1, 2019 & delivery August 10, 2019	Data for CCR can be obtained at: <a href="https://floridadep.gov/central/">https://floridadep.gov/central/</a>

<sup>\*</sup>POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2019 and may not include additional sampling required during the year due to special circumstances. If you have questions, please contact the appropriate personnel at (407) 897-4100. This chart shall not relieve any person from any requirement of Florida law.

This schedule and state forms can be found at <a href="https://floridadep.gov/central/">https://floridadep.gov/central/</a> on the Central District's website. Click on "Monitoring Schedules and Forms" under "Highlights" in the right-hand column.

- > It is important for you to provide this information to your operator and/or sampler.
- > It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/19 to provide time for revisions, re-tests, and/or corrections. Failure to sample within the required monitoring periods may result in enforcement action.
- > Test results must be submitted to DEP within the first 10 days following the end of the required monitoring period, or the first 10 days following the month in which the sample results were received, whichever time is the shortest. Failure to comply with deadlines may result in enforcement action.

Consumer Confidence Report (CCR) & CCR Certification of Delivery	July 1, 2019 & August 10, 2019	Data for CCR can be obtained at: <a href="https://floridadep.gov/central/central/content/resources-drinking-water-facilities-and-operators-central-district">https://floridadep.gov/central/central/content/resources-drinking-water-facilities-and-operators-central-district</a>

<sup>\*</sup>POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2019 and may not include additional sampling required during the year due to special circumstances. If you have questions, please contact the appropriate personnel at (407) 897-4100. This chart shall not relieve any person from any requirement of Florida law.

- > It is important for you to provide this information to your operator and/or sampler.
- > It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by 9/30/19 to provide time for revisions, re-tests, and/or corrections. Failure to sample within the required monitoring periods may result in enforcement action.

>	Test results must be submitted to DEP within the first 10 days following the end of the required monitoring period, or the first 10 days following the month in which the sample results were received, whichever time is the shortest. Failure to comply with deadlines may result in enforcement action.

#### 2019 DRINKING WATER MONITORING REQUIREMENTS

MONITORING & REPORTS	DUE	COMMENTS
Microbiological ("Bacte")	Monthly	Disinfectant residuals must be reported individually and averaged on bacte reports. Compliance for maximum disinfectant residual level is based on a running annual average.
Monthly Operation Reports (MORs)	Monthly	Include information about maintenance and/or abnormal occurrences & CT calcs. if required.
Nitrate and Nitrite	Annually	Sample at POE* annually.
Primary Inorganics	2021	Sample at POE every 3 years.
Secondaries	2021	Sample at POE every 3 years.
Radiologicals (Gross Alpha & Radium 228)	2021	Sample at POE every 6 years.
Volatile Organic Contaminants (VOCs)	2021	Sample at POE every 3 years.
Synthetic Organic Contaminants (SOCs)	2021	Sample at POE every 3 years.
Di(2-ethylhexyl)phthalate – Special Monitoring	July – September 2019	Sample at POE annually during the third quarter until further notice.
Stage 2 Disinfection Byproducts (DBPs)  Total Trihalomethanes & Haloacetic Acids (5)	Please submit an updated Stage 2 Plan in accordance with the EPA memorandum.	Continue <u>routine</u> (annual) testing July – Sept. 2017. Collect 1 TTHM sample from the highest TTHM site and 1 HAA5 sample from the highest HAA5 site. If your highest TTHM and HAA5 sites are at the same location, you may collect 1 dual sample. Report disinfectant residuals.
Asbestos	2021	Certification or results due every 9 years. Use Form 62-555.900(10), F.A.C., Asbestos Free Certification or Asbestos Sampling Plan.
Lead and Copper (Tap Sampling)	June-Sept. 2021	Test in accordance with the most recently approved sampling plan.
Consumer Confidence Report (CCR) & CCR Certification of Delivery	July 1, 2019 & August 10, 2019	Data for CCR can be obtained at: <a href="https://floridadep.gov/central/central/content/resources-">https://floridadep.gov/central/ce</a>

#### 2019 DRINKING WATER MONITORING REQUIREMENTS

MONITORING & REPORTS	DUE	COMMENTS
Microbiological ("Bacte")	Monthly	Disinfectant residuals must be reported individually on bacte reports.
Disinfectant Residual Reports	Quarterly	Compliance for maximum disinfectant residual level is based on a running annual average.
Monthly Operation Reports (MORs)	Monthly	Include information about maintenance and/or abnormal occurrences & CT calcs. if required.
Nitrate and Nitrite	Annually	Sample at POE*. System has 3 WPs: WP1, WP2 & WP3.
Primary Inorganics	2020	Sample at POE every 3 years.
Secondaries	2020	Sample at POE every 3 years.
Radiologicals (Gross Alpha & Radium 228)	2020	Sample at POE every 3 years.
Volatile Organic Contaminants (VOCs)	2020	Sample at POE every 3 years.
Synthetic Organic Contaminants (SOCs) (WP2 transitioning from qtrly to triennial 2014)	2 quarters 2020	Sample at each POE for 2 quarters every 3 years; samples shall be taken at least 60 days apart.
Stage 2 Disinfection Byproducts (DBPs) and Disinfection Byproduct Reports  Total Trihalomethanes & Haloacetic Acids (5)	February and August 2019	Test L1 - 1715 Lake Miona during February 2019 and test L3 - 1305 Stillwater Trail during the August of 2019. Report disinfectant residuals.
Asbestos	2020 (test)	Certification or results due every 9 years. Use Form 62-555.900(10), F.A.C., Asbestos Free Certification or Asbestos Sampling Plan.
Lead and Copper (Tap Sampling)	June-Sept. 2020	Test in accordance with the most recently approved sampling plan.
Consumer Confidence Report (CCR) & CCR Certification of Delivery	July 1, 2019 & August 10, 2019	Data for CCR can be obtained at: <a href="https://floridadep.gov/central/central/content/resources-drinking-water-facilities-and-operators">https://floridadep.gov/central/central/content/resources-drinking-water-facilities-and-operators</a>

<sup>\*</sup>POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment.

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2019 and may not include additional sampling required during the year due to special circumstances. If you have questions, please contact the appropriate personnel at (407) 897-4100. This chart shall not relieve any person from any requirement of Florida law.

#### 2019 DRINKING WATER MONITORING REQUIREMENTS

MONITORING & REPORTS	DUE	COMMENTS
Microbiological ("Bacte") – Continue to test wells monthly unless/until 4-log approval is granted.	Monthly (minimum 20 distribution)	Disinfectant residuals must be reported individually on bacte reports.
Disinfectant Residual Reports	Quarterly	Compliance for maximum disinfectant residual level is based on a running annual average.
Monthly Operation Reports (MORs)	Monthly	Include information about maintenance and/or abnormal occurrences & CT calcs. if required.
Nitrate and Nitrite	2019	Sample POE/D. CSU WP.
Primary Inorganics	2020	Sample POE/D CSU WP.
Secondaries	2020	Sample POE/D CSU WP.
Radiologicals (Gross Alpha & Radium 228 minimum)	2020	Sample POE/D CSU WP.
Volatile Organic Contaminants (VOCs)	2019	Sample POE/D CSU WP annually. In 2014, NSU WP was in service. Need 3 consecutive years of undetected sampling CSU. 2017, 2018 samples undetected and completed.
Synthetic Organic Contaminants (SOCs)	2 Quarters 2020	Sample at POE/D CSU WP for 2 Quarters in 2020 (1/20 & 4/20) CSU WP; samples shall be taken at least 60 days apart.
Special Monitoring Di(2-ethylhexyl)phthalate	Annually	Sample POE/D in the <b>2<sup>nd</sup> Quarter 2019</b> . Sample 3 consecutive years.
Stage 2 Disinfection Byproducts (DBPs) and Disinfection Byproduct Reports  Total Trihalomethanes & Haloacetic Acids (5)	February and November 2019	Test 2720 Brownwood Blvd. during February 2019 & test 3692 Barrel Loop November 2019. Report the disinfectant residuals.
Asbestos	2020	Certification or results due every 9 years. Use Form 62-555.900(10), F.A.C., Asbestos Free Certification or Asbestos Sampling Plan.
Lead and Copper (Tap Sampling)	June – Sept 2020	On reduced monitoring. Collect 30 samples in accordance with an approved lead & copper sampling plan.
Consumer Confidence Report (CCR) & CCR Certification of Delivery	CCR July 1, 2019 & delivery August 10, 2019	Data for CCR can be obtained at: <a href="https://floridadep.gov/central/central/content/resources-drinking-water-facilities-and-operators">https://floridadep.gov/central/central/content/resources-drinking-water-facilities-and-operators</a>

#### 2018 DRINKING WATER MONITORING REQUIREMENTS

MONITORING & REPORTS	DUE	COMMENTS
Microbiological ("Bacte")	Quarterly	Continue <u>routine</u> quarterly monitoring. Disinfectant residuals must be reported individually and averaged on bacte reports. Compliance for maximum disinfectant residual level is based on a running annual average.
Monthly Operation Reports (MORs)	Monthly	Include information about maintenance and/or abnormal occurrences & CT calcs. if required.
Nitrate and Nitrite	Annually	Sample at each POE* every year.
Primary Inorganics	2019	Sample at each POE every 3 years.
Volatile Organic Contaminants (VOCs)	2019	Sample at each POE every 3 years.
Radiologicals (Gross Alpha & Radium 228)	Exempt	Acceptable 2015 historic data meets criteria of 62-550.519(1)(e)1. Exempt from further monitoring.
Synthetic Organic Contaminants (SOCs)	2019	Sample at each POE every 3 years.
Stage 2 Disinfection Byproducts (DBPs) and Disinfection Byproduct Reports  Total Trihalomethanes & Haloacetic Acids (5)	Please submit an updated Stage 2 Plan in accordance with the EPA memorandum.	Continue reduced (triennial) testing July – Sept. 2019. On updated sampling plan, please pick a month in which you plan on sampling in the third quarter. Report disinfectant residuals.
Asbestos	2020 - 2022	Certification or results due every 9 years. Use Form 62-555.900(10), F.A.C., Asbestos Free Certification or Asbestos Sampling Plan.
Lead and Copper (Tap Sampling)	June-Sept. 2019	Test in accordance with the most recently approved sampling plan.

<sup>\*</sup>POE = Point of entry to the distribution system. Sample at each POE that is representative of each source after treatment (treated water, not raw water).

This is a good faith assessment of monitoring requirements for the above-referenced public water system for calendar year 2019 and may not include additional sampling required during the year due to special circumstances. If you have questions, please contact the appropriate personnel at (407) 897-4100. This chart shall not relieve any person from any requirement of Florida law.

- > It is important for you to provide this information to your operator and/or sampler.
- > It is strongly recommended that testing be conducted early in the monitoring period to allow time for retests due to possible sampling or lab errors. Annual and triennial sampling should be completed by

- <u>9/30/19</u> to provide time for revisions, re-tests, and/or corrections. <u>Failure to sample within the required monitoring periods may result in enforcement action.</u>
- > Test results must be submitted to DEP within the first 10 days following the end of the required monitoring period, or the first 10 days following the month in which the sample results were received, whichever time is the shortest. Failure to comply with deadlines may result in enforcement action.
