SRST	- Spring-Run Stream	4.59
UHF	- Upland Hardwood Forest	617.48
UMW	- Upland Mixed Woodland	275.13
UP	- Upland Pine	46.31
DV	- Developed	40.44
SA	- Spoil Area	1.25
SHF	- Successional Hardwood Forest	255.91
UC	- Utility Corridor	12.95

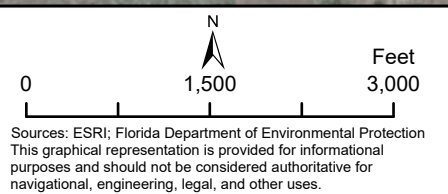

**SUWANNEE RIVER STATE PARK**  
**Natural Communities - Existing Conditions**

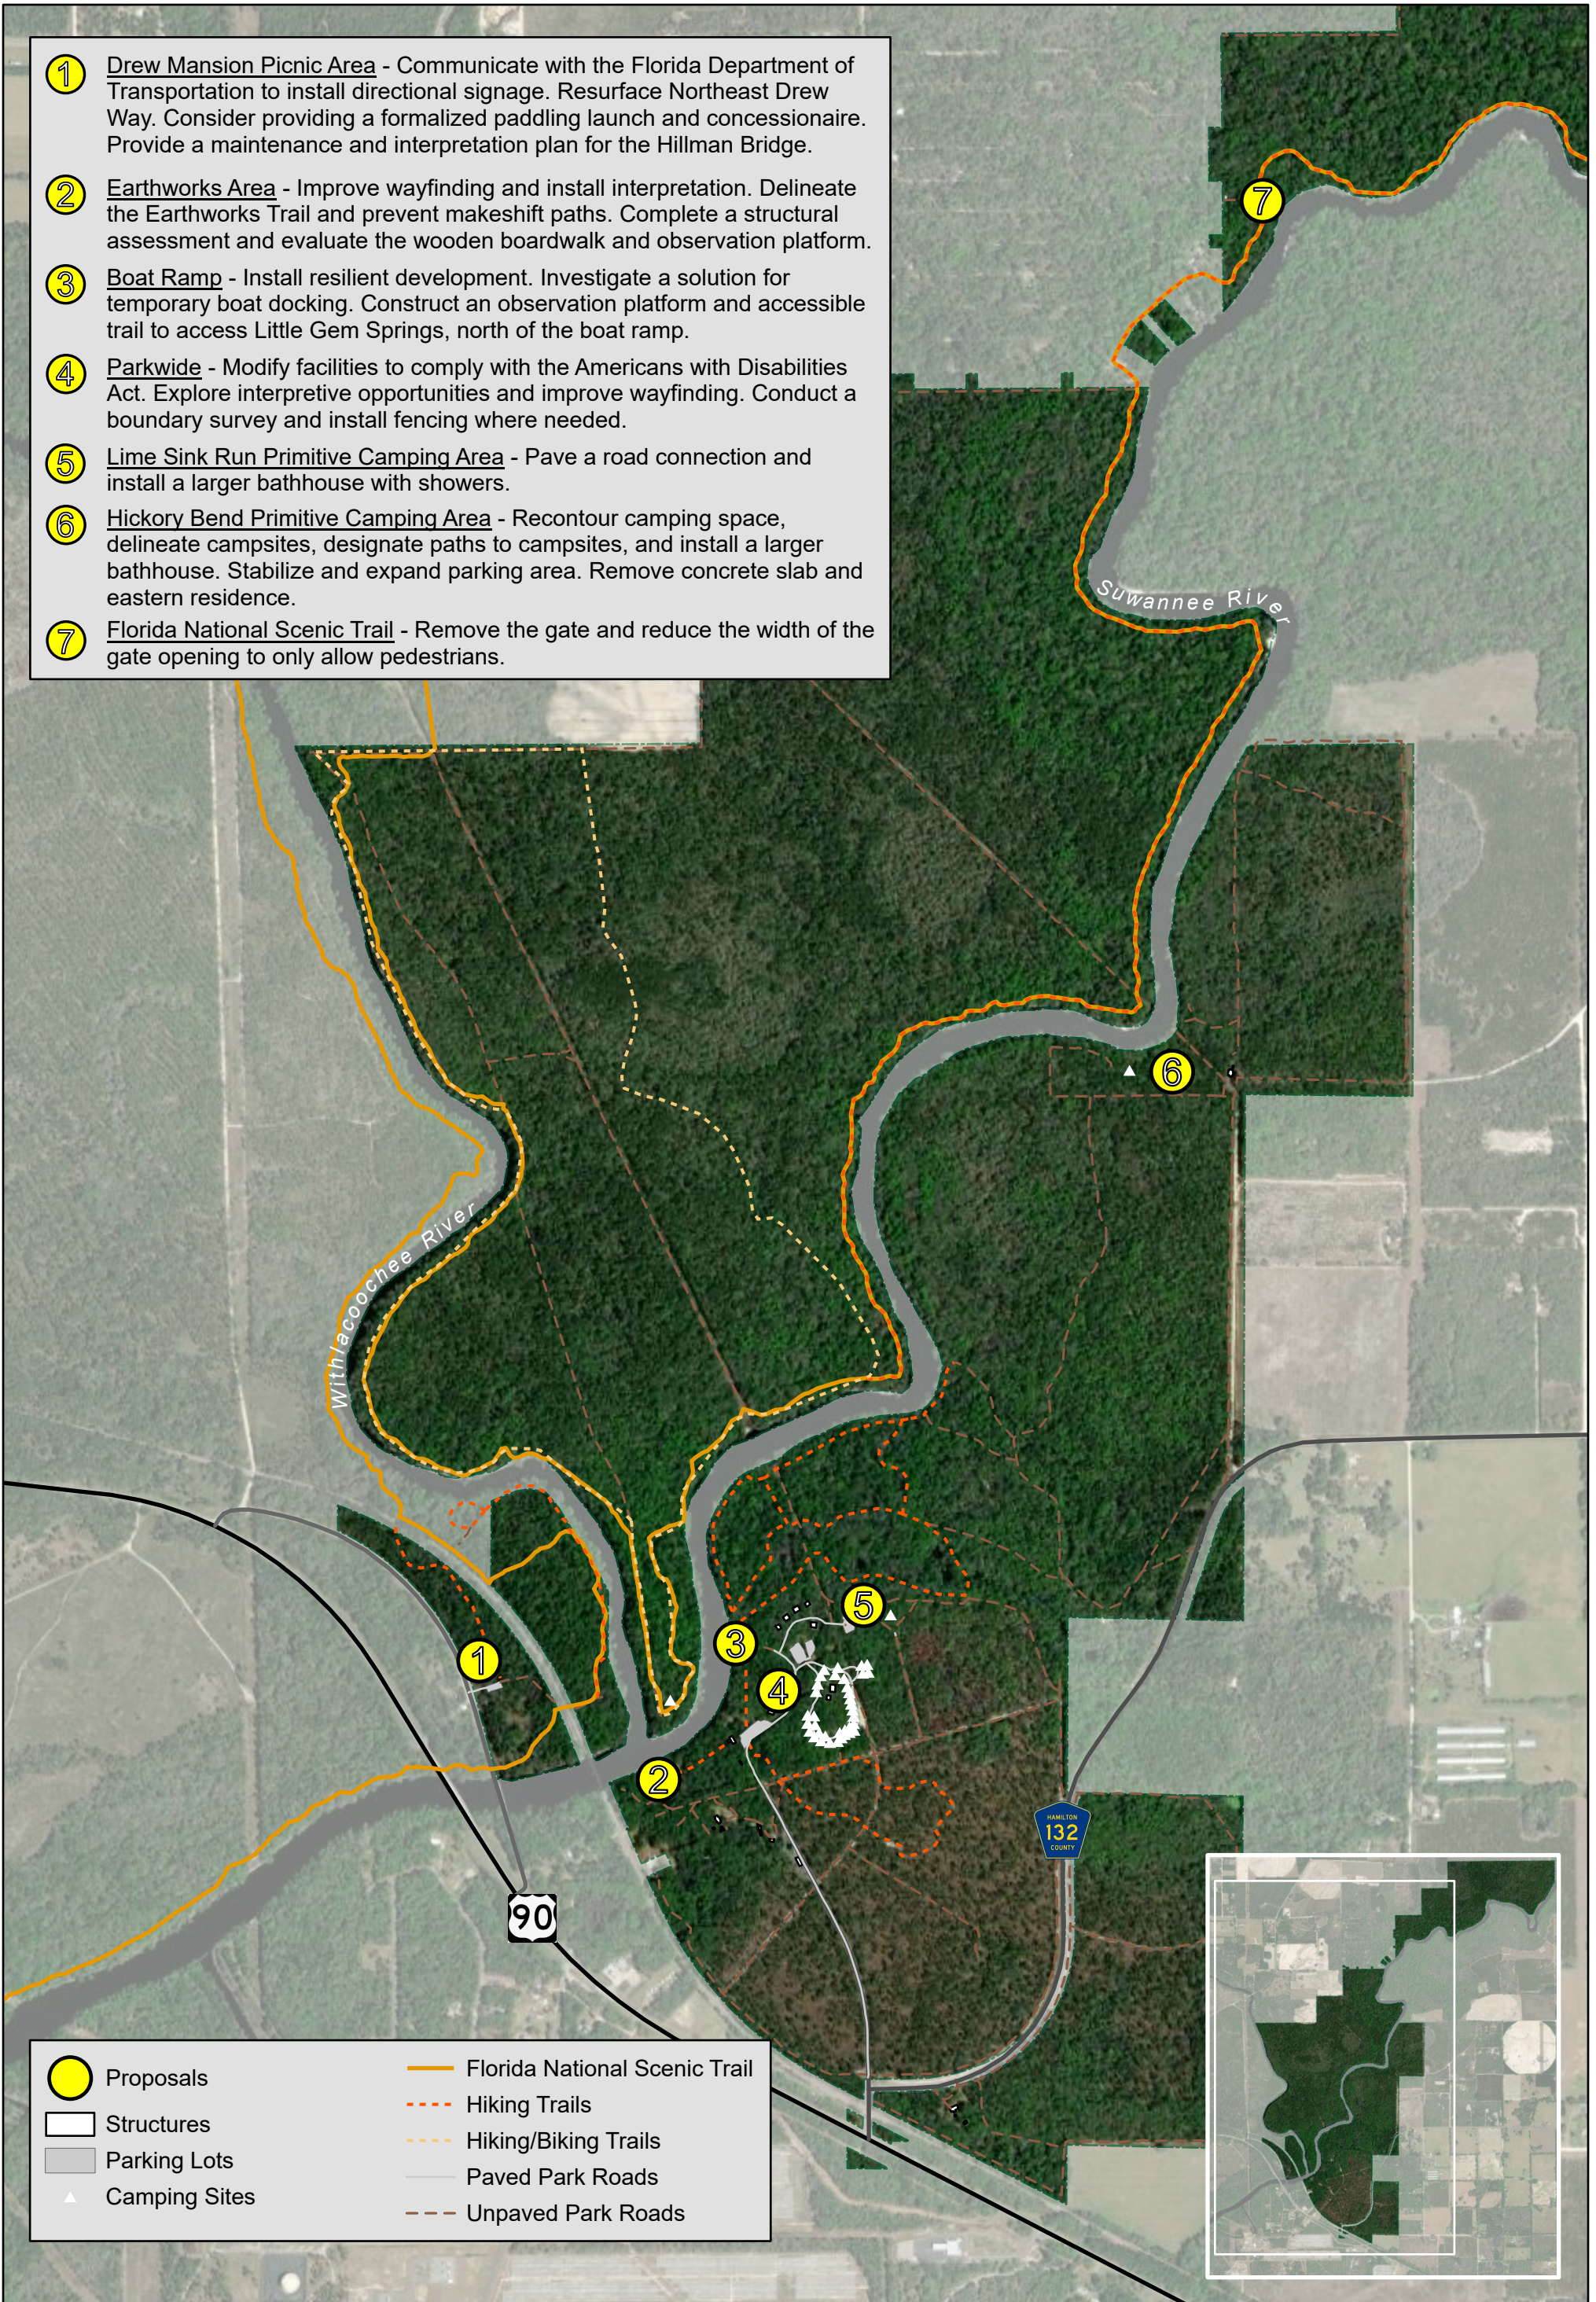

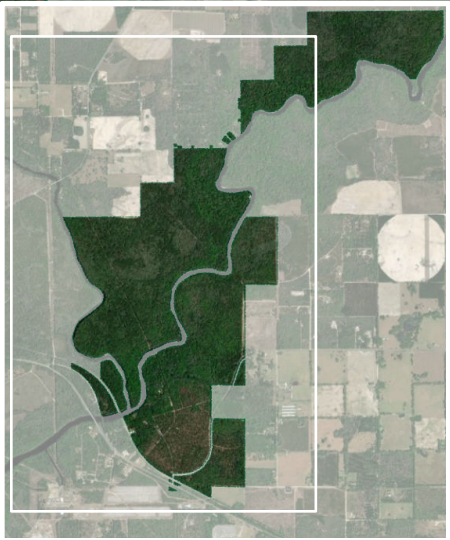

**SUWANNEE RIVER STATE PARK**  
**Natural Communities - Desired Future Conditions**

- ① **Drew Mansion Picnic Area** - Communicate with the Florida Department of Transportation to install directional signage. Resurface Northeast Drew Way. Consider providing a formalized paddling launch and concessionaire. Provide a maintenance and interpretation plan for the Hillman Bridge.
- ② **Earthworks Area** - Improve wayfinding and install interpretation. Delineate the Earthworks Trail and prevent makeshift paths. Complete a structural assessment and evaluate the wooden boardwalk and observation platform.
- ③ **Boat Ramp** - Install resilient development. Investigate a solution for temporary boat docking. Construct an observation platform and accessible trail to access Little Gem Springs, north of the boat ramp.
- ④ **Parkwide** - Modify facilities to comply with the Americans with Disabilities Act. Explore interpretive opportunities and improve wayfinding. Conduct a boundary survey and install fencing where needed.
- ⑤ **Lime Sink Run Primitive Camping Area** - Pave a road connection and install a larger bathhouse with showers.
- ⑥ **Hickory Bend Primitive Camping Area** - Recontour camping space, delineate campsites, designate paths to campsites, and install a larger bathhouse. Stabilize and expand parking area. Remove concrete slab and eastern residence.
- ⑦ **Florida National Scenic Trail** - Remove the gate and reduce the width of the gate opening to only allow pedestrians.
