2017 Drinking Water Chemical Monitoring Requirements

This below table summarizes the current monitoring requirements for the above facility and is subject to change. This information is a good faith assessment of the monitoring requirements for your system and we have sought to provide accurate information. Any errors in the table below does not exempt your system from state or federal monitoring requirements. If you are unsure or believe the information below is incorrect, please contact your inspector immediately. **It is ultimately the responsibility of the facility owners to ensure all monitoring is completed and results are submitted timely to the Department.** We encourage you to use the below tables to assist in scheduling and tracking your sampling events.

Chemical monitoring requirements can be found under Rule 62-550 of the Florida Administrative Code (Fla. Admin. Code), available at www.flrules.org.

Chemical Monitoring					
Date Scheduled	Date Sampled	Contaminant	Frequency	Next Due	Location & Comments
		Nitrate & Nitrite	Annually	2017	Sample at <u>each</u> Point of Entry to the distribution (Raw/Well samples will not be accepted for compliance)
		Primary Inorganics	Triennially	2018	
		Secondary Contaminants	Triennially	2018	
		Volatile Organics (VOCs)	Triennially	2018	
		Radionuclides	9 years	2018	
		Asbestos	Every 9 years	2021	Sample within distribution or certification if no asbestos pipes within the system, use Form 62-555.900(10) for Asbestos Free Certification or Asbestos Sampling Plan*
		Synthetic Organics (SOCs)	Triennially	2018	Sample at <u>each</u> Point of Entry to the distribution (2 quarterly samples required if population >3,300) or submit a request to waive samples using Form 62-560.545(2)*
		Stage 2 Disinfection Byproducts (S2 DBPs)	Annually	Jul-Sep 2017 at 11083 MILLSITE CLUSTER <u>and</u> 23760 PARK CENTER DR for TTHMs and HAA5s**	
		Lead and Copper (tap samples)	Triennially	Jun-Sept 2018	Sample at pre-approved sample plan sites

***Note on Asbestos Free Certification and SOC Waiver:** Submit certification/waiver requests by October 31st to allow time for department review. Form submittal does not automatically waive sampling, which will be required if the request is not approved.

****Note on DBPs:** TTHMs = Total Trihalomethanes and HAA5s = Haloacetic Acids. Locations indicated are the pre-approved sample plan sites. If sites need to be altered, a new plan and justification should be submitted for review.

Bacteriological requirements can be found in Rules 62-550.310, 62-550.828, and 62-550.830, Fla. Admin. Code.

Bacteriological Monitoring	
Current Population on Record	784
Monitoring Frequency	Monthly
Raw Sampling	1 Raw (pre-treatment) per well
Distribution Sampling	1

When you receive results from the laboratory, **review the report immediately** to verify the information is complete, verify all contaminants were analyzed, and results are below levels requiring additional monitoring under 62-550, Fla. Admin. Code.

Important Reminders:

- Please take samples early in the monitoring period to allow for possible lab delays and unforeseen events.
- Reports must include system cover page, lab cover page, chains of custody, results page, and lab certification pages.
- Reports are due to the Department *within 10 days* following the end of sample period or following your receipt of the laboratory report, whichever time is less. We recommend submitting reports as soon as available. Do **not** rely on the laboratory to submit monitoring results to the Department.
- All samples must be taken during the required monitoring period and from the correct location(s) to be accepted for compliance.
- Failure to sample in accordance with rule requirements may result in enforcement action.

		Asbestos	Every 9 years	2022	Sample within distribution or certification if no asbestos pipes within the system, use Form 62-555.900(10) for Asbestos Free Certification or Asbestos Sampling Plan*
		Synthetic Organics (SOCs)	Triennially	2019	Sample at <u>each</u> Point of Entry to the distribution (2 quarterly samples required if population >3,300) or submit a request to waive samples using Form 62-560.545(2)*
		Stage 2 Disinfection Byproducts (S2 DBPs)	Triennially	Jul-Sep 2019 at FELLOWSHIP HALL	TTHMs and HAA5s **
		Lead and Copper (tap samples)	Triennially	Jun-Sept 2018	Sample at pre-approved sample plan sites

***Note on Asbestos Free Certification and SOC Waiver:** Submit certification/waiver requests by October 31st to allow time for department review. Form submittal does not automatically waive sampling, which will be required if the request is not approved.

****Note on DBPs:** TTHMs = Total Trihalomethanes and HAA5s = Haloacetic Acids. Locations indicated are the pre-approved sample plan sites. If sites need to be altered, a new plan and justification should be submitted for review.

Bacteriological requirements can be found in Rules 62-550.310, 62-550.828, and 62-550.830, Fla. Admin. Code.

Bacteriological Monitoring	
Current Population on Record	210
Monitoring Frequency	Quarterly
Raw Sampling	1 Raw (pre-treatment) per well
Distribution Sampling	1

When you receive results from the laboratory, **review the report immediately** to verify the information is complete, verify all contaminants were analyzed, and results are below levels requiring additional monitoring under 62-550, Fla. Admin. Code.

Important Reminders:

- Please take samples early in the monitoring period to allow for possible lab delays and unforeseen events.
- Reports must include system cover page, lab cover page, chains of custody, results page, and lab certification pages.
- Reports are due to the Department *within 10 days* following the end of sample period or following your receipt of the laboratory report, whichever time is less. We recommend submitting reports as soon as available. Do not rely on the laboratory to submit monitoring results to the Department.
- All samples must be taken during the required monitoring period and from the correct location(s) to be accepted for compliance.
- Failure to sample in accordance with rule requirements may result in enforcement action.

2017 Drinking Water Chemical Monitoring Requirements

This below table summarizes the current monitoring requirements for the above facility and is subject to change. This information is a good faith assessment of the monitoring requirements for your system and we have sought to provide accurate information. Any errors in the table below does not exempt your system from state or federal monitoring requirements. If you are unsure or believe the information below is incorrect, please contact your inspector immediately. **It is ultimately the responsibility of the facility owners to ensure all monitoring is completed and results are submitted timely to the Department.** We encourage you to use the below tables to assist in scheduling and tracking your sampling events.

Chemical monitoring requirements can be found under Rule 62-550 of the Florida Administrative Code (Fla. Admin. Code), available at www.flrules.org.

Chemical Monitoring					
Date Scheduled	Date Sampled	Contaminant	Frequency	Next Due	Location & Comments
		Nitrate & Nitrite	Annually	2017	Sample at <u>each</u> Point of Entry to the distribution (Raw/Well samples will not be accepted for compliance)
		Primary Inorganics	Triennially	2019	
		Volatile Organics (VOCs)	Annually	2017	
		Radionuclides	9 years	2022	
		Asbestos	Every 9 years	2022	Sample within distribution or certification if no asbestos pipes within the system, use Form 62-555.900(10) for Asbestos Free Certification or Asbestos Sampling Plan*
		Synthetic Organics (SOCs)	Annually	2017	Sample at <u>each</u> Point of Entry to the distribution (2 quarterly samples required if population >3,300) or submit a request to waive samples using Form 62-560.545(2)*
		Stage 2 Disinfection Byproducts (S2 DBPs)	Annually	Jul-Sep 2017 at CEMENT LOAD OUT LAB SINK for TTHMs and HAA5s**	
		Lead and Copper (tap samples)	Annually	June 2017	Sample at pre-approved sample plan sites

***Note on Asbestos Free Certification and SOC Waiver:** Submit certification/waiver requests by October 31st to allow time for department review. Form submittal does not automatically waive sampling, which will be required if the request is not approved.

****Note on DBPs:** TTHMs = Total Trihalomethanes and HAA5s = Haloacetic Acids. Locations indicated are the pre-approved sample plan sites. If sites need to be altered, a new plan and justification should be submitted for review.

Bacteriological requirements can be found in Rules 62-550.310, 62-550.828, and 62-550.830, Fla. Admin. Code.

Bacteriological Monitoring	
Current Population on Record	75
Monitoring Frequency	Quarterly
Raw Sampling	1 Raw (pre-treatment) per well
Distribution Sampling	1

When you receive results from the laboratory, **review the report immediately** to verify the information is complete, verify all contaminants were analyzed, and results are below levels requiring additional monitoring under 62-550, Fla. Admin. Code.
