

# **Wekiva Hunt Club Wastewater Treatment Plant (WWTP)**

## **Frequently Asked Questions**

**Address:** 144 Ledbury Drive, Longwood FL, 32779.

**Facility ID#** FL0036251.

### **What activities is Wekiva Hunt Club WWTP authorized to perform?**

This facility is a domestic wastewater treatment facility permitted to treat 2.9 million gallons per day (MGD) of wastewater on an annual average daily flow (AADF) basis. The treated effluent can be applied as irrigation to a public access reuse system, sent to rapid infiltration basins (RIBs) or discharged to Sweetwater Creek. The domestic wastewater facility permit outlines the quantity and quality of the water that can be reused/discharged to the various permitted locations.

### **What is causing the odor in the area around the Wekiva Hunt Club WWTP?**

The Florida Department of Environmental Protection (DEP) has observed odors leaving the boundary of the permitted facility. Odors were detected and attributed to the equalization tank at the facility (noted by the red arrow). The facility is currently draining and cleaning the tank. This process is causing odors to be emitted from the equalization tank.

### **Who do I contact if I have an odor complaint?**

To submit an odor complaint for the Wekiva Hunt Club WWPD use the [online form](#) or call 407-897-4100.

### **How does DEP respond to my odor complaints?**

When DEP receives a complaint, it is immediately assigned to the Compliance Assurance Program. Every complaint is responded to with a thorough investigation. During an investigation, an inspector will perform the following activities:

1. Determine if the reported concern falls under our jurisdiction.
2. Follow-up with the complainant.
3. Investigate to determine if the complaint is valid/invalid.
4. If non-compliance is identified, ensure a facility/site comes back into compliance in accordance with department guidelines.

### **Who do I contact if I have health questions or concerns?**

Any health-related questions should be directed to your personal physician or the Seminole County Department of Health who can be reached at 407-665-3000 or [chd59webmaster@flhealth.gov](mailto:chd59webmaster@flhealth.gov).
