ATTACHMENT 1

LIST OF COMPONENTS, SYSTEMS, AND PROCESSES TO BE EVALUATED

A. Pumping
   1. Raw Wastewater
   2. Intermediate
   3. Recirculation
   4. Residuals
   5. Effluent
   6. Reclaimed Water
B. Flow Measurement
C. Preliminary Treatment
   1. Preaeration
   2. Prechlorination
   3. Flow Equalization
   4. Screens
   5. Grit Removal
   6. Shredding and Grinding
D. Biological Treatment
   1. Trickling Filters
   2. Activated Sludge
   3. Rotating Biological Contactors
   4. Other, Specify_________
E. Nutrient Removal
F. Chemical Treatment
G. Sedimentation
   1. Primary
   2. Intermediate
   3. Final
H. Filtration
I. Disinfection
J. Dechlorination
K. Postaeration
L. Residuals Treatment
   1. Thickening
   2. Conditioning
   3. Stabilization
   4. Dewatering Systems
   5. Other, Specify_________
M. Instrumentation
N. Sampling Equipment
O. Monitoring Equipment
P. Laboratory
Q. Disposal Systems
   1. Outfalls
   2. Injection Wells
   3. Other, Specify_________
R. Reuse Systems
S. Wetland Systems
T. Other, Specify ____________
